Press release – 6th July 2015

The Qobuz Sublime subscription service includes the whole Hi-Res Universal Music catalogue !

The Qobuz Sublime subscription is available in France and in 8 European countries.

Until now, the Hi Res Universal Music catalogue was not available outside France for Hi-Res download at the special price, althgouh streaming was already available, of course.

Our subscribers in the following countries:

Austria
Belgium
Germany
Ireland
Luxembourg
Switzerland
the Netherlands
the United Kingdom

... will be happy to learn that they can now take advantage of the very favourable offers for Hi-Res downloads including on the Hi-Res Universal Music catalogue.
An essential collection of artists and albums!

What's more, as Qobuz Sublime subscribers, they can stream their purchases in Hi-Res 24-bits on our Android application, or on other compatible devices.

Qobuz Sublime is the new music subscription service from Qobuz, designed for you as the first to combine high-quality streaming and Hi-Res downloads at a reduced price. Qobuz has today the biggest Hi-Res 24-bit music catalogue in the world !
